ABOUT SCHOOL OF LAW

School of Law, established in the year 2012, offers a curriculum designed to impart contemporary legal knowledge, acts, legal procedures, discussions of contemporary technology-enabled systems, processes and procedures in the course of teaching Indian laws as well as international laws. The focus is on developing a critical and usable understanding of the laws of India and international laws extending to related domain areas such as business, international trade and relations.

The teaching-learning process blends knowledge and skills in such a way that the student can apply them in the real world with a focus on promoting and delivering multi-disciplinary inquiry and practical appreciation of problems. The pedagogy offers an optimal integration of classroom lectures, Moot Courts, Cases, Case Studies, Judgment Review & Analysis, Projects and Assignments.

Each course is monitored by a module leader who facilitates academic delivery by professional/s and/or academicians having proven competencies and experience in a range of domain areas under law and allied areas.
