About the Conference

The 2nd Series of the International Conference on Communication, Security and Artificial Intelligence - ICCSAI-2023 is technically sponsored by the IEEE UP section. The conference will provide a high-level international forum and an excellent venue for scientists, researchers, academic faculties, students, industry leaders, and others in the fields of communication, security and artificial intelligence to present, discuss and publish their recent research results and approaches. The conference is an opportunity to develop new ideas and collaborations, and to be aware of the latest search trends in communication, security and artificial intelligence techniques and their applications in the various fields. This 2nd series is enriched by very important special sessions that deal with problems using the latest trends and developments in computing. The conference will feature a range of presentations on latest research activities as well as stimulating talks and keynote addresses. The Conference shall be organized by Galgotias University, Greater Noida, Uttar Pradesh, during November 23-25, 2023. All accepted and presented research papers in the conference will be eligible for inclusion in IEEE Xplore Digital Library. The extended versions of high-quality innovative research papers from the accepted paper presented at the conference will be considered for possible publication in SCI and Scopus Indexed Journal.
